Hey Clarissa, thanks for the message.

My function prices are typically \$825 for 3 hours or \$1045 for 4 hours. Both those prices include GST. I'm definitely on the more expensive side for local musicians so you could find cheaper if you shop around.

In saying that it also depends on whether it's a quiet season for me or maybe if it's a Sunday where I don't have anything on. So it never hurts to ask me last minute in case I have a hole in my calendar.

The idea of going to the schools is a good one. I think you're right in approaching the music teachers. Maybe even ask if there's anyone in the previous grades that have since left school 🙋

The price will be significantly cheaper but it may also be a little bit of a roll of the dice.

Regards,  
Andrzej
