2025/2026

Thank you for the continuing opportunity to represent our members as a NMBA committee and Life member. I wish to acknowledge and thank the current committee and members for their contribution and support over the past year.

Financially, we are in a stronger position than previous years, with our continued focus on providing free, or heavily subsidised events and activities to our members. This aligns to our not-for-profit goals and best supports the continuation of our association. Our fundraising is targeted and provides adequate support of our current event plans, and we have a supporting committee and member base and community we could reach out if the need arose to provide additional funding for future activities.

Thank you to Jen for continuing to lead our association, keep us organised and support our upcoming committee members and volunteers. To Naomi, Alison, Jess, Joanne, Hannah, Adelle, Michelle, Emma & Rhys and Anthony Thank you for your generous contributions volunteering on the NMBA committee and for all of the work behind the scenes to ensure we can provide events and support for our member families. It doesn't go unnoticed as with volunteering many hands make light work! Special mention to Jo for her contribution on the AMBA Board, all that work you have done for MBAW and for continuing to advocate for our families at a local and national level.

Tonight, as we head into our AGM - I look forward to seeing our new committee come together and for the many wonderful opportunities we can together create to provide meaningful support and interaction through events and activities with our multiple birth member families.

Thank You
Lynda Cowen
