Many pets love to hump stuff (and each other) and sanitizing every toy and mat 100% every time will put a lot of work on volunteers/the board, and may not even be possible to ensure. I think that even the most immodest genital covering can greatly reduce the risk of exposing objects and people to rogue bodily expressions and will best serve the majority of members/spaces/newcomers.	uncomfortable

						<p>Having attended the mosh regularly since i started back up after covid, I have always admired and cherished the inclusive atmosphere fostered by sea-pah. The diversity of participants, encompassing individuals of all genders and identities, has been instrumental in creating a welcoming space where everyone feels accepted and valued. This inclusiveness has not only enriched our community but has also provided a platform for individuals to explore and embrace gender fluidity in a supportive environment.</p> <p>However, I am apprehensive about the proposal to introduce full nudity during the mosh events. Through conversations with fellow pups, I have come to understand that many individuals, particularly those struggling with body dysmorphia, would feel uncomfortable and alienated by such a change. Sure they dont have to do it, but they are gonna feel pressure and ostracized if they dont. The risk of losing valued members of our community due to this discomfort is significant and disheartening. The essence of the mosh and our community, as I have observed, lies in fostering connections, support, and acceptance—not in catering solely to personal desires or fetishes.</p> <p>Moreover, the introduction of full nudity raises concerns regarding hygiene and safety. Given the nature of pup play and the physical interactions on the mats, allowing exposed genitals and bodily fluids poses a considerable risk to participants' health. Maintaining a hygienic as possible environment is paramount to ensuring the well-being of all attendees. Last mosh there were pups having sex in the bathrooms, I honestly don't care about that, but it is against the establishments rules. I can only imagine the policing that the board will have to do to make sure genitals dont slip into mouths on the mats if there is full nudity. Hormones will rage and decision making abilities will be impaired because of that and the alcohol present. It will 100% happen.</p> <p>In light of these concerns, I propose exploring alternative avenues for those interested in full nudity or fetish activities, similar to the fetish tasting event held previously. This approach would allow individuals to opt-in based on their preferences while preserving the integrity and inclusivity of the monthly mosh events.</p> <p>I urge you to consider these points carefully and prioritize the well-being and comfort of all members of our community in your decision-making process. Together, we can uphold the values of inclusivity, acceptance, and safety that define our community and ensure that the monthly mosh remains a cherished and welcoming space for all.</p>		<p>(MoshEvery+MoshAlmost) What is the highest level of nudity that you think should be allowed ON the mosh mats? 4/3/2024 17:02:33	Yes	Every couple months	Rarely	Topless + underwear exposing anus with covered genitals	Topless + underwear exposing anus with covered genitals	One concern i have with nudity, even with just exposed butts, is it can create a more uncomfortable environment, especially for new comers. for an example , it took me a little bit to be able to get onto mats at all, then one day as i'm slowing getting into my playful puppy mood a few inches away was someone's ass hole. i couldn't do anything to push them away, since everyone else seemed to enjoy it being out. made me feel out of place, and had to move away, and since there was already a lot of people on the mats, i had to stop and get off completely. ruined mosh day for me. another aspect for me personally is i have to separate my playful puppy side from a sexual puppy side and extra nudity makes that difficult to focus on just being a puppy. I also have concerns about some hygiene aspects, there is only soo much you can do, as some people choose to be at different levels of hygiene, with that said, exposing more sensitive areas would make things more unhygienic, almost too unhygienic to where i would just stop coming at all.	uncomfortable, hygiene, space

With allowing nudity there should be new rules put in place on what activities are allowed and not allowed. Also it is important that all club members are aware that what someone is wearing or not wearing does not mean consent and to keep paws to yourself unless direct consent is given.	hygiene, consent, uncomfortable
