OUR CLUB

Curtin Geoscientists and Engineers Club

is a dynamic environment lead by passionate students with a commitment to empower the next generation of geoscientists and engineers. With strong connections to professional bodies and a drive to foster collaboration, innovation, and career readiness, the leadership committee ensures that all members have opportunities to grow, connect, and thrive within their fields. Through endless dedication, CGEC organises industry networking events, professional development workshops, and social activities that enrich the student experience.
