

General Business – Open to floor

Question:

Seeking clarification to Why was the decision made by the committee to not enter an Open Women's team for 2024:

Shane:

The decision was made because there was a deadline due to register players, this deadline was told to them many times they ignored this, ignored the committee leading up to this deadline and after the deadline, we notified them that we had not entered a team. There response was how do we go around you to get this sorted?

We then had a meeting at it was decided that we would not move forward with the team for the 2024 season.

We want to move forward, we have made a decision and are sticking by it.

We have a great space in the female players building up, and look forward to where they can take us for the future.
