Game Day Set Up And Pack Up

As we begin a new season, we would like to ensure that match days run smoothly and efficiently for everyone involved. To help achieve this, we ask for your cooperation with the following responsibilities.

The nominated Club is responsible for:

- Opening the KSA Shed 3 thirty minutes prior to start of first scheduled game
- Opening KLP Toilets both male and female (Keys in Shed No3)
- Setting up KSA Gazebo and table in front of Shed No3
- Giving guidance to coaches/managers/parents setting up first game and packing up last game

First Game of the Day

The teams scheduled for the first match on each field are responsible for setting up the goals including installing nets, corner flags as required and team benches prior to kick-off. This includes collecting the correct goal nets, which are labelled and stored in bins in the KSA shed 3. Please ensure you select the appropriate nets for your goals. Both teams playing the first fixture share responsibility for this task, so please work together and allow enough time to have everything ready before kick-off.

Last Game of the Day

The teams playing the final match on each field are responsible for packing down all equipment and returning the KSA Shed 3. This includes removing the goal nets, corner flags and benches and packing these away neatly. The goals must be moved off the pitches safely to the North end fence line (Dampier Hwy) and KLP end of the fields to allow ground maintenance to be carried throughout the week. Both teams in the final fixture share responsibility for completing this task.

Your support in sharing these duties helps maintain our facilities and ensures a positive streamlined experience for all players, families, and volunteers throughout the season.
